KESSEBÖHMER MiO PULL OUT

For cabinet widths 450 and 600 mm

- > High-end look with glass panorama sides as standard
- > Organisable storage for tall pantry units or base cabinets
- > Easy to clean and care for
- > Choice of widths and heights for versatile solutions
- > Full extension soft close runner with 30kg weight capacity per shelf

The kitchen is the culinary centre, but it's not the only part of your home that has to meet escalating demands for design, ergonomics, storage space and functionality. Creating a system that is right for any size of room requires creative flexibility in planning and an innovative look – with functionality and style that is right for any area of your home, even wet rooms.

MiO does it all. It's a system of pull-outs for base units, wardrobes, cabinets and beyond developed by Kesseböhmer that successfully blends contemporary design with optimal functionality. Modularity lets you configure custom pull-out solutions to optimise your storage.

It lets you make optimal use of your storage space, with effortless pull-out action, fantastic design and the latest technology – Designed in Germany.
